Wed. Night 10-30

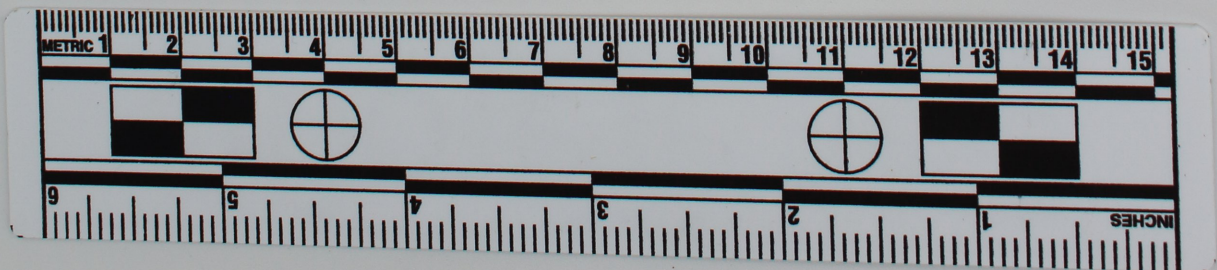

Dear Dad! - Rec'd your good letter yesterday also the 10.00
thank you very much, pd.
3.00 on water bill this afternoon
+ 5.00 will go on rent, I think
that will make 10.00 rent bill.
I went to Prayer meeting
tonight + left girls to go to bed +
finishing eating their supper.
Maudie has been here since
Monday A.M. + went home on
4:11 Car this after we had a good
time but she did quite a bit
of sewing for us.

Every body on "Now-Bellinger"
side wants you home Sat. to
vote + visit. I don't see why your
contractor wouldn't be willing
for you to come home for 2 or
more days, under circumstances
if you keep your place for you.
Get left Sat. morn. Could you
not home before 6 in Eve? If
not it would be better to
start Holiday Eve.

2/2 if you don't come home for this
election you must try to stay
there until I come, which
I will do soon as I can, after
I find homes for the stock or
rather decide what to do with
them. Altho I would like to put
up some berries before I go.
Can you find out if there are
many berries & much fruit
up there & if reasonable.
Rate & price are so bad here also
mother that I hate to close up the
house. Mr. W. says to put some
poison raisins or cheese & that will
fix them.
I am glad you have got such
a nice man & family to work
for.

Why don't you ask me about
getting a tent here to take along
up to Atascadero?
all our girls & I went down to
Marques on Thursday & picked
up over 3 racks of potatoes & will
ship them when I go north, what
price of potatoes there? our pot-
atoes & fruit & vegetables wouldn't
cost us but little here this yr.
no letter for several days from you
Dedie

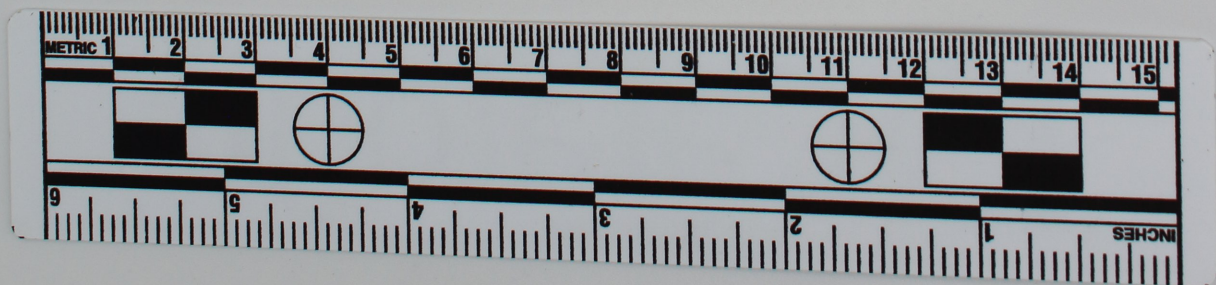

2nd Mr Webb was here this Eve
at dusk and he has taken the
option out on Gov. land for
20.00 for 60 days for us²
he wanted to know if I wanted
to let Andy, Surrency & Law go
at 200.00 over the deal? That
the "widow" wanted to know
for she had a buyer for
the horse & Mr Webb senior^{ly}
buy "Daisy Bell".
At thing^{will} take both horses
& Law & keep for us² and
down once wk. or oftener to
look after place.
Mr W. just got contract for
500 houses & auto house and a
contract for bridge & had just
ordered 60 sacks cement & all
his work so far is in
Serra Madre.
They have ordered their
goods to be shipped down
from their ranch up North
so they will settle there as
long as work keeps up.

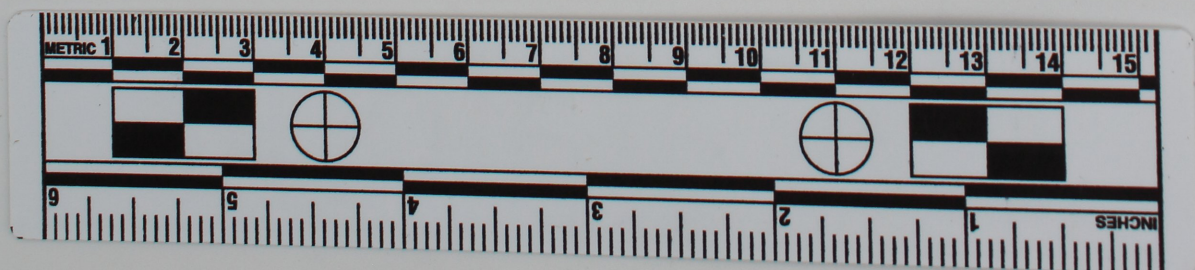

that they could sell Andy to
some Japs for 75.00 if I said
so. The Japs wanted him to bring
Celt over & they were so busy,
so I let him take him, (this
made me most heart sick)
but he brought him back
as one Jap had gone away &
other was asleep, they had a
Jap horse Dr. there who looked
him over & said "very good
horse". Japs said they'd come
this eve. to see him. As I don't
know what to do
Andy Dandy - trotted off beside
his mother with one line on
him just as tho he'd been
driven every day all his life.
he is so gentle.

Gee! how the people are flying
by to the election. Some are
waving to the girls who are out
on lawn most of time today.
We moved the lawn last night
& Helen & Alice, have raked & cleaned
up front & it look fine.

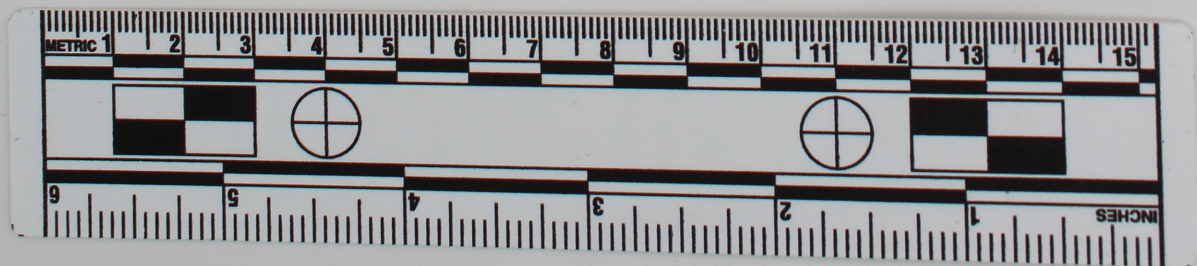

3 This is Sat. afternoon 2, 40
Mr West & Mr Harry H. came for
me (& kids) to go & vote they
had lots excitement this fore-
noon & morning up town
Kid Paine was put in an
auto to run for votes but he
was taken off by our men
because he had no license
license & was going to take
young Kent off Billings auto
for same reason don't know
if they arrested them or not
were going to & could have
them Bert Parker said some-
thing to Mr W. Harlock about
his wife standing in with the
liquor men & Mr H. told him
plainly it was all a lie & hauled
off to give him a blow but
some one held him back
and they contested Aileys vote
because he lives out city on
a strip of county land so he
won't have to pay taxes.
Then the Billings wouldn't

5 money for detectives on
Mr Rose. these figures just
came to light last night.
Sorry the hot weather is so
hard on you, Can't you get
all inside work?
Have you tried the iodine
on your feet yet?

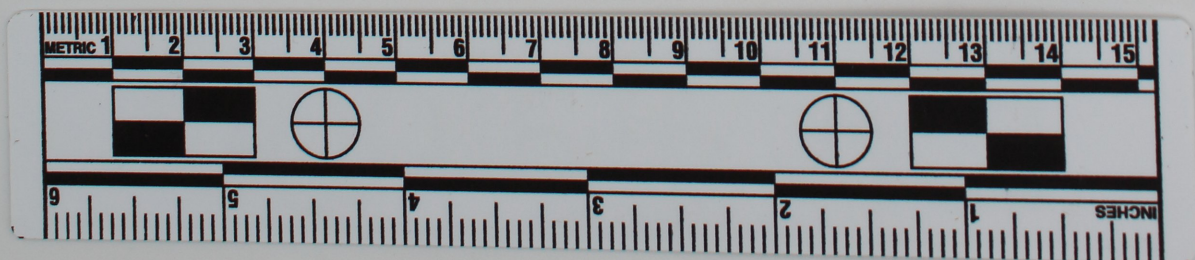

If it don't help your feet
I'll try to get you instep
arches, or what ever they are
called.

Daisy Bell is doing well I think.
and all the lovely cream.
I am selling 1 qt. to Howell and 1
qt. to John Devin + Mr Harper over
at Evans old place. Don't know
if to risk selling more now as
calf appetite is increasing. I
don't know why June don't come
fresh, and afraid she isn't going
to be + that will look crooked
in me. I am afraid altho Mr
Webb told me he had been over
to see Mr Alexander lately.
Grand Pa + Ma Webb came down
yesterday afternoon + said they

4 let Jimm. Roby + wife vote
because they have been
away from Arcadia for
awhile and had Sam R. live
in their house so as to hold
fire insurance. They have
got an atty. up there now
+ he says they have a right
to vote. Our crowd is very
hopeful, but I fear it will
be a close shave. Every body
on our side wish you were
home. + so do we + Co.
Altho you said you 'didn't
think you'd get home, we
have been looking for you
all forenoon + will look rest
of day.

The Old Bill Crowl this wk. had
a Mr. Rose over on D. track
for living with his Cousin +
stirred up a lot excitement +
it was good thing for us
for turned a lot of votes
over for us. They paid out
something like 228.50 of city

8 We expect to have a big mess
of Kentucky Wonder beans out
of our garden tomorrow, wish
you could have some.
Do you & Mr. F. want some nice
tomato plants?

~~Since I changed some butter today~~
on way home from Angus potato
patch we called on Bowman
family & Grand Ma tho' feeble took
me out into orchard to see
some of fruit, cherry plums are
ripening & O! what a sight, trees
just loaded.

O! Miss Wilson got the appointment
this wk. for Post mistress, for which
I am glad.

Wonder if we could ever raise
10000 in money to pay on that
Gov. land if we don't re-sell some
or wanted to keep it. Mr Webb
will want his 20,00 option money
July 1st. A man wanted him to
tell him where it was other day
& he wouldn't tell & quick as he
could took option on it for fear
I'd lose it. Good by, much love
no letter for several days
Dedie
